### General principles

**The device shall be mounted in accordance with the site layout plan or with the following principles:**

- Secure the assembly site to keep others at a distance
- Designate a precise location of the assembly having regard to appropriate safety zones of all other devices.
- The device shall be mounted in consideration of an appropriate space of safety using of other, adjacent equipment, in accordance with the rules laid down in European Standard PN EN 1176.
- During the assembly works, follow the original assembly instruction of the particular equipment.
- The item shall be mounted on a level ground, immediately after delivery to the mounting location.
- The installation shall be performed by using appropriate tools and technical means.

### Assembly method

1. The assembly of the Curb shall start with planning of placing the item in the area, having regard to its impact area (if determined) For this purpose use a tape measure, having regard to routes around the item.
2. Set the construction in a designated, leveled place
4. Fix the Curb to the ground with expansion bolts
5. After the installation, level the ground around the table and remove the assembly tools
