

# Technical Data Sheet

<b>Product name:</b> Concrete Skate Bank Ramp - h 150 cm	<b>Date create:</b> 2021-10-05	<b>Code:</b> 151215	<b>Destination:</b> Skate Park	<b>Scale:</b> 1:25
	<b>Construction materials:</b> Concrete od class C 35/45, hot dip galvanized steel	<b>Weight:</b> 2305 kg	<b>Notes:</b>	

## Technical description:

- Construction made of three different concrete modules: Bank of height 600mm + extension of 980mm h + extension of 1500mm h.
- All steel elements are protected against corrosion (hot dip galvanized).
- The device is available in 4 height versions: 350mm (151235), 600mm (151260), 700mm (151270) and 980mm (151298).
- Bank 1500 can be mounted as a standalone element or as a component of a bigger skate park set - in this case the concrete elements are connected with steel plates 5mm width and screws.
- It shall be prohibited to combine two Banks 600 in one device such as Spine Ramp
- Concrete elements are protected by impregnation and painted with acrylic paint PILBET

**WARNING ! The equipment shall be used in accordance with its intended purpose**
